About the Report Card

The Puget Sound Partnership Leadership Council has responsibility for tracking implementation and holding the region accountable for implementing the measures in the Action Agenda. These include Actions, Strategic Initiatives, Biennial Science Workplan Recommendations and ongoing programs. Actions are the critical efforts in the next two years that are considered necessary to move Puget Sound recovery forward. Actions have a range of different owners and collaborators. The Action Agenda Report Card provides a transparent and accessible way to gauge progress in implementing the Action Agenda by clearly showing essential milestones and performance measures, identifying the reason progress may not be on track, and identifying the corrective actions required.
